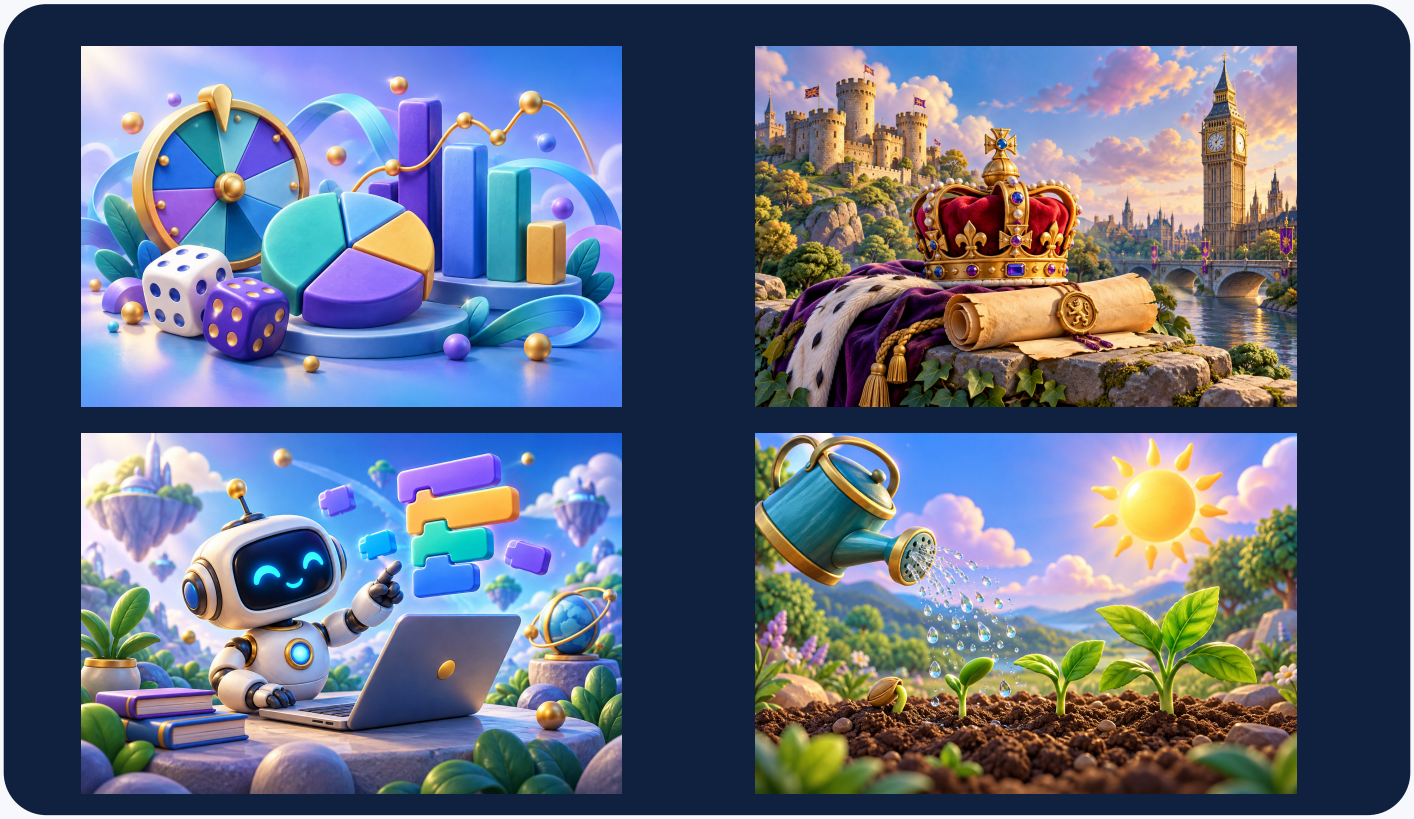
IMPLEMENTATION COLLECTION

64 illustrated deck covers

Individual 1536 x 1024 PNG assets, a searchable manifest, and Cursor import instructions.



Built for the artwork bank

64 newly generated standalone images. No baked-in headings, Study buttons, card frames or interface screenshots.

The PDF is a visual catalogue. Install the original PNG files from the companion ZIP; do not crop or extract catalogue images.

Role: opaque landscape deck cover. Transparent heroes, page backgrounds and educational diagrams are different asset types.

Approval: pending owner review. The manifest disables automatic selection until the owner approves each asset.

SETUP

Install and select correctly

Use the ZIP as the source of application files.

1. Copy the assets

Copy public/illustrated/deck-bank/ into your existing Flipvise public directory. Preserve stable filenames and keep unrelated assets.

2. Merge the manifest

Use artwork-manifest.json to import topic, subject, keywords, dimensions, hashes and role. Never select a cover solely because its title matched a keyword.

3. Approve before automatic use

Preview each candidate. The supplied selectionEnabled value is false. Add approved assets to your existing admin workflow; keep unreviewed entries unavailable to automatic selection.

4. Size for the actual slot

Every source targets 1536 x 1024 pixels, 3:2. At 2x density that supports a 768 CSS-pixel width. Start with object-fit: contain. Inspect any cover crop on desktop and mobile.

5. Keep the interface editable

Render titles, questions, metadata and actions in HTML, outside the artwork. These images are decorative covers, not UI components or scientifically verified teaching diagrams.

6. Preserve the controls

Respect the user appearance setting and admin master switch. Do not generate images on page render. Use neutral decoration or no image when a topic illustration could expose a quiz answer.

7. Give Cursor the brief

Read CURSOR_IMPORT_PROMPT.md in the ZIP. It covers bank integration, resolution checks, approval, fallback, offline behaviour and verification.

COVERAGE

Subject and topic index

All 60 earlier board topics plus four original deck examples.

Core subjects

Human Body / Atoms & Reactions / Forces & Motion / Earth & Weather / Story Writing / Geometry

Applied learning

Coding / Entrepreneurship / Workshop Safety / Everyday Words / Plant Growth / Jamaican Heritage

Mathematics

Fractions & Decimals / Algebraic Expressions / Statistics & Probability / Trigonometry / Measurement & Units / Money & Budgeting

Life Science

Cells & Organelles / Ecosystems & Food Webs / Genetics & Inheritance / Nutrition & Digestion / Microbes & Immunity / Plants & Photosynthesis

Physical Science

Electricity & Circuits / Light & Optics / Sound & Waves / States of Matter / Acids & Bases / Energy & Heat

Earth & Space

Solar System / Moon Phases / Rocks & Minerals / Volcanoes & Earthquakes / Oceans & Water Cycle / Climate & Conservation

English & Literacy

Reading Comprehension / Grammar & Sentences / Poetry & Figurative Language / Persuasive Writing / Spelling & Vocabulary / Public Speaking

History & Civics

Ancient Egypt / Ancient Rome / Caribbean Independence / Government & Democracy / Rights & Responsibilities / World Exploration

Technology & Careers

Cybersecurity Basics / Web Development / Robotics & Automation / Electrical Installation Safety / Carpentry & Joinery / Culinary Skills & Hygiene

Life Skills & Early Learning

Emotions & Empathy / Time Management / Road Safety / Colours & Shapes / Counting & Number Sense / Phonics & Letter Sounds

Earlier deck examples

British History / Air Pollution / Algebra 1 / Statistics & Data

ARTWORK CATALOGUE

Covers 01-04

PNG originals in the ZIP. Titles and filenames below are catalogue labels, not part of the artwork.
